

Andrew A Zacharia

Web Developer (Permanent Resident Australia)

9 Berringarra Road, Officer VIC 3809, Australia
[+61468366820](tel:+61468366820) | andyzack@gmail.com | www.andrewaz.com

I'm a front end web developer very good in taking a vague, high-level concept, working through the myriad details to create a full design, then collaborating closely with peers to get it built.

I'm currently seeking a new challenge where I can utilise my skills and knowledge to drive company's objectives and join hands in making a difference.

Mar 2020 **tti.com.au**

– Present **Web Developer – Remote** (based in Melbourne, Australia)

TTi provides the very best rotationally moulded liquid transport tanks and spray equipment to the Agricultural and Civil market sectors. Worked closely with Marketing team in promotions and campaigns, during the short period of 3 months, the sales increased by 30% even during this unprecedented and challenging time.

My role includes...

- Build and maintain web solutions
- Enhance & improve usability to drive more traffic
- Website optimisation and performance monitoring
- Wordpress workflow automation, team collaboration

Jun 2016 **Cartrawler** 

– Jan 2020 **Consultant Contractor** (based in Melbourne, Australia)

Nov 2006 **Cartrawler** 

– Jun 2016 **Front End Engineer** (based in Dublin, Ireland)

Worked for Cartrawler, Ireland, from early startup years through to the highly successful years as the company grew to hundreds of people, played a key part in the core team as a front end dev, built, lead many solutions that were key to the success of numerous partner deals. My role includes...

- Build, maintain and expand car rental and mobility landing pages and widgets
- Liaising with stakeholders to create a full design and get it built
- Mentoring, guiding team on design/web standards
- Build front end workflow automation
- Providing technical assistance & problem-solving skills in a dynamic, collaborative & agile work environment
- Work closely with clients based in Australia to support work and deliver solutions in an effective and timely manner

i-flex Team Award

April 2006

addr.com top designer

won weekly award 15 times - 2004

Nikkel Appreciation

initiating & developing intranet - 2000

Jun 2005 **i-flex Solutions Ltd. (Oracle Financial Services)** 
– Jun 2006 [Associate Consultant – Design](#)

Sep 2004 **Capco** 
– Jun 2005 [Associate Consultant – Design](#)

A former employee of i-flex, I was part of the transition of Operational Risk Suite of products (Reveleus) from Capco, a management and consultancy firm in 2005.

- Conceptual design, illustration & development of Reveleus, a BASEL II compliant software solution for controlling & management of operational risks
- Assists in determining and setting standards for the look-and-feel of the entire application

Dec 2003 **ADDR.com** 
– Sep 2004 [Web/Graphic Designer](#)

A web hosting and design studio experience working with more than 30 designers and analysts delivering custom web design.

- Develop websites to support specific business objectives as well as reinforcing Company's brand image by designing and constructing web pages incorporating UI features and other techniques.

Aug 2000 **Enventure Technologies** 
– Sep 2004 [Programmer](#)

Joined enventure as Electronic Engineer but soon changed to a Programmer as I got the opportunity to build company's intranet, my first web project ever. After this my passion for web design and development never stopped as I involved myself with many web projects.

- Conceptual design, illustration & development of desktop/web solutions.
