Summary

I'm a front end web developer, very good in taking a vague, high-level concept, working through the myriad details to create a full design, then collaborating closely with peers to get it built.

Career history

Consultant Contractor at Cartrawler (based in Melbourne, Australia)
Jun 2016 – Jan 2020

Front End Engineer at Cartrawler (based in Dublin, Ireland)
Nov 2006 – Jun 2016

I served the company for almost 14 years since the early startup years, played a key part in the core team as a front end developer, built, lead many solutions that were key to the success of numerous partner deals.

Key responsibilities

- Build, maintain and expand car rental and mobility landing pages and widgets

- Liaise with stakeholders to create a full design and get it built

- Problem-solving in a dynamic, collaborative and agile work environment

Achievements

- Jetstar cars solutions delivered in an effective and timely manner

  jetstar.com/au/en/car-hire

- Integrated more than 100 car sites including 40 airlines, samples below

  cars.easyjet.com   cartrawler.virginaustralia.com   cars.airasia.com
  cars.vueling.com   cars.cartrawler.com/emirates   rentalcars.dohop.com
  cars.swiss.com   cars.cartrawler.com/thaismileair   cars.hotels.com

- Front end workflow automation to build and manage thousand of widgets & email

  cars.cartrawler.com/emirates/widget?
